Breathe in Light is a technique, which helps to bring resolution and transformation to our accumulated physical, mental and emotional life history. By intentionally breathing in Light into our congested history, it is gradually transformed and easily breathed out of the body.

Repeat this **Breathe in Light technique** (fully or partially) daily or weekly, even hourly.

Repeat the following with your inner voice,

**A. "I open all my Shock and Trauma to the Light, to be healed, to be transformed,
to be released,"**

Now, imagine Light infiltrating into all of your Shock and Trauma, Imagine the Shock and Trauma as physical congestion in your body and imagine the Light molecules interspersing themselves among these molecules. As more and more Light is incorporated into the Shock and Trauma congestion, the Light transforms it. Now, this Light-filled Shock and Trauma is easily breathed out of the body, mind and spirit.

Now, think **(B)** as you breathe in and out: (use normal, relaxed, nasal breathing)

B. Breathe in Light; breathe out Shock and Trauma (3 times)

Breathe in Light; breathe out Shock and Trauma

Breathe in Light; breathe out Shock and Trauma

Repeat, with each of the following triads, (Repeat each - 3 times)

1. Breathe in Light; breathe out Shock, Trauma, Stress
2. Breathe in Light; breathe out Fear, Anxiety, Worry
3. Breathe in Light; breathe out Hatred, Anger, Hurt
